

Elder Advisory Group, LLC

Elder Care Alliance with Weiner & McCulloch, PLLC

What Is Life Care Planning?

Life Care Planning is a holistic approach to long-term care planning that addresses the emotional, physical, and financial challenges faced by multigenerational families. Following her mother-in-law's stroke and years of caring for her own aging mother, Janet Jackson-McCulloch founded Elder Advisory Group in 2010. She fully appreciated the need for professional guidance in navigating the unique challenges, and opportunities, of aging.

Why We Recommend Life Care Planning

As an elder law attorney, Tom McCulloch is committed to providing comprehensive life care planning services to his clients and their families. Undertaking the elder care maze can be confusing, and finding thoughtful solutions for aging issues, long-term illness, or disability can be complex. McCulloch's collaborative approach to providing estate planning and elder law solutions is enhanced by the professional relationship with Elder Advisory Group. Elder Advisory Group is a team of geriatric care managers and Aging Life Care Specialists who provide life care planning and advocacy services to aging adults and their family caregivers.

Together, our comprehensive team of care advocates and attorneys provides guidance, education, and support for clients, with a focus on maintaining independence and helping to enhance their quality of life.
